PROJECT

- **Image steganography using quantum** technology | Python, Html, CSS, java script
- **EXS (Endless Exploration of Splendid) Video**| Ejs, CSS, PostgreSQL, JavaScript
- **Autism Spectrum Disorder Prediction** | Python, CSS, SQL, JavaScript
- **Automated Parking System**| Python, SQL, JavaScript
- **Wealth Wager Application** | Ejs, Passportjs, Ui in Android Studio, PostgreSQL
- **Movie IMDB Rating** | HTML, CSS, JavaScript

Internship and certifications

Mathematical Foundations of Artificial Intelligence and Applications December-2022
Participated in a 2-day workshop on Mathematical foundations of Artificial Intelligence and applications held by the department of AI & ML in association with department of mathematics at AIT, CKM.

Hackothan-2022 March - 2022
Participated in a Hackathon held by the Department of CSE of AIT, CKM

Deep Learning Applications June – 2024
Participated in a Skill development Program on Deep Learning Applications held by the department of AI & ML at AIT, CKM

Machine Learning and Applications July - 2024
Participated in a Skill development Program on Machine Learning Applications held by the department of AI & ML at AIT, CKM

FOSS Hack-2024 July
Participated in a FOSS-Hack, National -level Hackathon held at JNN college of engineering, Shivamogga

HONORS & AWARDS

Completed a course on Foundations of Cybersecurity-Online
Completed a 3 months course on python-Offline.
